KLUDI

SANITARYWARE

Almost 100 years ago

KLUDI began manufacturing bathroom
fittings using traditional methods
of craftsmanship. Followed by high-quality,
reliable fixtures of timeless design,
this expertise formed the foundation
of KLUDI. From the tradition as
a faucet specialist, the goal was created
to combine the highest quality of use and
perfect design in a unique way.
Unmistakable expression in
our products as well as in all services
we provide for our customers.
It inspires and drives

our future activities.

Rimless technology

Kludi delivers the ultimate in technology for bathroom suites. Based on similar design specifications to sanitaryware in hospitals and medical centres, Kludi Rimless water closets allows you to experience the same high standards of hygiene in your own home.
Kludi exceeds the standards of hygiene and water efficiency in the sanitaryware industry, with uniquely engineered water flushing systems that effectively remove waste, helping to keep bathrooms fresh and hygienic.

WATER SAVING
Using just 4 litres for the full flush and 2.5 litres for the half flush, water usage is reduced by a third.

HYGIENIC AND EASY TO CLEAN
The water closets have no rims to harbour germs, making cleaning quick, easy and more hygienic.

SILENT FLUSH
Rimless technology allows a faster and more silent flush.

EFFICIENT DESIGN
Design and efficiency can be successfully combined. Water flows vertically and horizontally, before flushing the entire inner surface of the bowl, without splashing.

Hidden fixation systems

Our wall hung and back to wall products are benefitting from the collaboration with Fischer Group, one of the industry leaders. The use of the most innovative Fischer fixing systems, is allowing us design freedom on the ceramic, better aesthetics and more safety for the installer.

The Hidden Fixation System is comfortable and time saving, in fact one-man installation is made possible by the clip system that keeps the ceramic held up during the installation.
