

KITCHEN COMPETENCE
Performance for Life

Almost 100 years ago,

KLUDI began manufacturing bathroom fittings using traditional methods of craftsmanship. Followed by high-quality, reliable fixtures of timeless design, this expertise formed the foundation of KLUDI. From the tradition as a faucet specialist, the goal was created to combine the highest quality of use and perfect design in a unique way. Thus the claim *Water in Perfection* finds unmistakable expression in our products as well as in all services we provide for our customers. It inspires and drives

our future activities.

Reliable functions, perfect form, top performance since 1926

4

Since 1926, we at KLUDI have been focusing on what we do best: the development and manufacture of quality fittings. We actually developed many of the features found in modern fittings. For example the multi-connection, or the KLUDI E-GO, the world's first hybrid sensor fitting for kitchen sinks. We hold over 100 patents for our fittings, a testament to our inventiveness. Our aim is to make good products even better with innovative solutions and continue to optimise their benefits for our users. That starts with helping plumbers and designers as well as bathroom and kitchen specialists. We want to simplify the day-to-day work of their profession. That was our mission when we developed our KITCHEN COMPETENCE concept – improving clarity and success in consulting and sales.

Benefits for you

Brand quality from the fittings specialist

From product development and in-house tool construction all the way to final assembly by hand, the KLUDI teams ensure that all our fittings meet the strictest finishing, functionality and durability demands.

BASIC DESIGNS

When developing our solutions and ranges for bathrooms and kitchens, we have always been driven by the desire to add appreciable value for you: We want to make your work easier and help you keep your customers satisfied. That was also our aim for the new kitchen range.

The three function levels COMFORT, COMFORT PLUS and EXCELLENCE let you meet all of your customers needs from a single source. Combined with M-, L- or the C-LINE, you cover all popular design styles, leaving nothing to be desired. That effectively saves you time, both for initial sales and aftermarket business, while also giving you the benefit of excellent brand quality.

Three function levels for all requirements

You know from your own experience:

As customers become more exacting, ranges often become less clear. Our new KITCHEN COMPETENCE range proves that doesn't have to be the case. With its three function levels, we offer you a simple, clearly structured consulting tool, which helps you suggest the perfect fittings for customer needs. From basic functions to high-end requirements – our products make it easy for you to meet all of your customers' requirements. See our product overview on page 8–9 for full details of the functions and fittings.

10

COMFORT

Optimal
functional benefits
in everyday life

COMFORT does everything a fitting should, whether for classic fitted kitchens, or for kitchen islands.

COMFORT PLUS

Exclusive
operating experience

COMFORT PLUS goes beyond everyday requirements: the added functions make every use of the kitchen fitting an exclusive experience.

EXCELLENCE

Intelligent
kitchen fittings

EXCELLENCE meets the most exacting expectations for operating convenience. Building on our basic functions, electronic features turn the fittings into intelligent helpers in your kitchen.

KLUDI EASY-FIT – better in every detail

Installation has
never been easier

12

KLUDI FIX-IT®

No tools are needed to fasten our shaft nut: Simply tightening it by hand is enough to make the fitting secure and stable. For additional stability, you can tighten the fastening bolts with a conventional Allen key.

KLUDI CLICK-IT®

No need to make time-consuming threaded connections under the sink. All you have to do is place our lead-free counterweight for fittings with pull-out spouts around the hose and click it closed. You're done in a matter of seconds!

Our new CLICK-IT®, CLIP-IT® and DO-IT® features, and our new FIX-IT shaft mount appreciably reduce your installation workload. That saves you time –

especially for larger projects – letting you make more of your day. We have labelled the fittings with our new features using the relevant symbols.

KLUDI CLIP-IT®

Complete the task by hand in seconds. The new CLIP-IT® quick coupler lets you simply connect the two hoses by hand. They form a precise and secure unit in no time.

KLUDI DO-IT®

Awkward extensions are a thing of the past. The extra-long DO-IT® connecting hoses gives you the range you need. The 460-millimetre hose takes the water wherever it is needed.

KLUDI MIX

The classic with highest functionality

18

KLUDI MIX is back – the proven all-rounder has been guaranteeing first-class functionality on kitchen sinks for over 30 years and embodies the excellent manufacturing quality of our kitchen fittings. With its gentle curves and straight lines, KLUDI MIX is a modern design classic, outlasting fads and fashions.

Perfectly tailored for everyday kitchen work, the fitting comes with many different features like the multi-connector, the pull-out spout or bayonet function and is available with both closed and open levers. From spring 2022, a model with pull-out spray tap will be offered.

Its matt black surface offers impressive
colour depth and great durability.

KLUDI MIX

M2

Modern geometry and elegant design

26

The new KLUDI M2 series features a sophisticated design, bringing clear and clean lines to the kitchen. The combination of the extremely streamlined, dynamic spout with the slimline lever gives the fitting its modern, fresh look, making it ideal for youthful,

urban kitchen environments. The KLUDI M2 has innovative EASY-FIT features to effectively simplify handling during installation.

EASY-FIT for appreciably easier installation – extra-long DO-IT® connecting hoses and our FIX-IT® shaft mount make your work much easier.

REDUCED WORKLOAD

Our extra-long DO-IT® connecting hoses save you the time-consuming job of adding extensions and reduce your accessory inventory.

SIMPLE HANDLING

Our new FIX-IT® shaft mount ensures that the fitting is secure and stable no matter which installation version is selected. Simply tighten the shaft nut hand-tight.

AN ABUNDANCE OF SPACE AT THE SINK

With its 360° swivel spout, KLUDI M2 is also suitable for double sinks.

Single lever kitchen sink mixer DN 15
595740575

The spout's tall design gives it a dynamic stylistic idiom while offering more space in the kitchen: the added clearance makes it easier to work with large pots.

STEEL

Clear design and powerful elegance

30

KLUDI STEEL's design impresses with timeless symmetry and clear lines. Made of solid stainless steel, the fitting embodies durability. In everyday use, it can cope with the toughest conditions and offers a particularly easy-to-clean and hygienic surface. The radially brushed finish highlights the elegant overall impression and is pleasant to

the touch. The dish sprayer model can be changed from volume to shower spray with a gentle push on the button. This premium, timeless and elegant fitting blends harmoniously into modern kitchens, creating a clear, uncluttered feeling.

OBJEKTA

Dynamic in form and function

Thanks to its timeless, classic design, KLUDI OBJEKTA blends particularly well into kitchens with a no-frills, modern look. With the tall base and the elegant, elongated body, the KLUDI OBJEKTA offers substantial space for working, even at small sinks. The dynamic lever design offers ergonomic convenience for perfect control of the water volume and jet intensity.

Whether bayonet fitting, multi-connection or pull-out dish sprayer – its functionality combined with its classic shape makes KLUDI OBJEKTA the perfect component of numerous kitchen concepts of various sizes.

TRENDO

Timeless classics and great variety

32

KLUDI TRENDO is versatile and combines fine lines with impressive stability. The arched spout gives you an unrestricted working space, even on small sinks. The wide swivel range adds convenience. With its generous range of features like the spray function,

the multi-connector or the bayonet connection, KLUDI TRENDO leaves nothing to be desired.

SCOPE

Clear shape and optimal functionality

KLUDI SCOPE is characterised by its compact, cylindrical form that adds an elegant touch to small sinks. The dynamic swivel spout is highlighted by the precise opening angle of the lever and offers an optimal range of motion of 360° in its basic version.

The fitting can be combined flexibly with various sink types: Available in a variety of spout heights and function versions, KLUDI SCOPE meets a wide range of needs in the kitchen.

L STEEL

Stainless steel to meet the highest demands

38

Minimalist design with maximum style – with its precise, straight lines and absence of superfluous details, KLUDI L STEEL is minimalism at its purest. Its sophisticated spout and its clear stylistic idiom give the fitting a beautifully light, yet sturdy ap-

pearance in conjunction with perfectly balanced proportions. Made of high-grade solid stainless steel, L STEEL is an impressive highlight in any exclusive kitchen.

EASY-FIT appreciably reduces your installation workload – thanks to the DO-IT® connection and our FIX-IT® shaft mount for easy handling.

Major bonus in kitchens:

Stainless steel surfaces boast
outstanding hygienic properties.

SUSTAINABLE THANKS TO ECOPLUS

An ingenious solution for more energy efficiency. When the lever is in the vertical standard position, the water is always cold, unlike conventional fittings.

AN ABUNDANCE OF SPACE AT THE SINK

The spout in the basic version swivels 360°. The version with a pull-out spout offers increased flexibility with a swivel radius of 180°.

L STEEL

L-INE

Functionality in perfect form

42

The tall spout and the L-shape make the KLUDI L-INE a stylish design feature. Round, harmonious shapes define the overall look of the series. The pull-out telescopic spout expands the range of motion, allowing the fitting to conveniently reach the entire working area around the sink. The gentle laminar jet is easy to control with the slender lever and ensures that the water does not splash when it hits the sink.

Whether classic one-hole or stylish two-hole fittings: The fine lines and clean design of KLUDI L-INE make it ideal for modern, minimalist kitchens. Now available with a matt black surface.

L-INE S

A clear statement in modern kitchens

KLUDI L-INE S is our re-interpretation of the classic L shape. The design follows a traditional line and looks powerful, yet delicate. One example of this is the ergonomically positioned, particularly broad handle lever that makes operation more convenient. The slender pull-out spout also highlights the fitting's minimalist nature. For even more design scope, your customers can choose between different surfaces

based on their personal taste: pure chrome, a combination of white and black chrome and, now available, elegant matt black.

E-GO Smart aesthetics

48

The intelligent KLUDI E-GO kitchen fitting is a perfect symbiosis of high-tech solutions made in Germany, functional operating convenience and sophisticated aesthetics. With its intuitive sensor technology, it keeps users' hands free and the fitting sparkling and clean. That makes it the world's first hybrid fitting for kitchen sinks, giving your customers freedom to choose between contact-free and manual operation.

More hygiene, more convenience.
The integrated sensor technology,
means KLUDI E-GO can always
stay clean and dry, even when the
user's hands are dirty or wet.

The white, flexible and removable
hose spout expands the range of
motion at the sink for maximum
operating convenience.

BINGO STAR

Perfect functionality in an expressive shape

50

The tall arched spout of the BINGO STAR not only makes it easier to fill large pots and vases, it also adds an elegant design highlight in the kitchen. Besides the dynamic design, the wide range of products, offering the perfect solution for every installation situation, is remarkable. The flexible hose arch of the functional double arch spout version adds even more versatility

by extending the fittings' range of motion. In both BINGO STAR versions, the water flow is a gentle, no-splash laminar jet. Now available with a matt black surface.

BINGO STAR XS

New lightness for your kitchen

KLUDI BINGO STAR XS is our modern interpretation of the classic arch shape. The slim arched outlet is subtle, but adds an eye-catching feature to any modern kitchen. The shortened handle is also comfortable to use and gives full control of water volume and temperature. The locking pull-out spout offers maximum freedom of movement at the sink and

snaps into place audibly and perceptibly. The matt white and matt black surface versions create impressive and fascinating contrasts.
